Summary

Hello! I'm **Showket Ahamed**, a Computer Science and Engineering student at **United International University** with a strong interest in technology, innovation, and continuous learning. I am passionate about solving problems, exploring new technologies, and turning ideas into practical solutions.

My academic journey has helped me build knowledge in software development, artificial intelligence, databases, networking, operating systems, and human-computer interaction. I enjoy learning both the theoretical and practical aspects of computing and constantly challenge myself to improve my technical and analytical skills.

Beyond academics, I value teamwork, responsibility, and effective communication. I enjoy collaborating with others, sharing ideas, and contributing to projects that create meaningful impact. I believe that technology should be accessible, efficient, and user-focused, and I strive to apply these principles in everything I do.

I am always eager to learn new skills, adapt to emerging technologies, and take on opportunities that help me grow both personally and professionally. My goal is to build a successful career in the technology industry while continuously expanding my knowledge and making a positive contribution through innovation and creativity.

Education

United International University
Computer Science and Engineering (CSE)
3.20

january 2023 - january 2027
Undergraduate

Skills

HTML

Creating well-structured and semantic web pages.

● ○ ○ ○ ○

CSS

Designing responsive and visually appealing user interfaces.

● ● ○ ○ ○

JavaScript

Adding interactivity and dynamic functionality to websites

● ○ ○ ○ ○

React

Building modern, reusable, and interactive user interface components

● ● ○ ○ ○

PHP

Developing server-side logic and web application functionality.

● ● ● ○ ○

MySQL

Designing and managing relational databases efficiently.

● ● ● ● ● ○

Laravel

Building secure and scalable web applications using the Laravel framework.

● ● ○ ○ ○ ○

Git

Tracking code changes and managing project versions.

● ● ● ○ ○ ○

GitHub

Collaborating on projects and managing source code repositories.

● ● ● ● ● ○

UI/UX Design

Creating user-friendly and intuitive digital experiences.

● ● ● ○ ○ ○

Figma

Designing wireframes, prototypes, and user interfaces.

● ○ ○ ○ ○ ○

Machine Learning

Developing models that learn patterns from data.

● ● ● ○ ○ ○

Artificial Intelligence

Creating intelligent systems that automate decision-making.

● ● ● ○ ○ ○

IoT

Connecting hardware devices and sensors to collect and exchange data.

● ○ ○ ○ ○ ○

Problem Solving

Analyzing challenges and developing effective solutions.

● ● ● ○ ○ ○

Teamwork

Collaborating effectively with others to achieve project goals.

● ● ● ● ● ○

Communication

Sharing ideas and technical information clearly and effectively.

● ● ● ● ● ●

Interests

Data Analytics

Data Analytics | Data Visualization | SQL | Python | Excel | Statistical Analysis | Business Intelligence | Data Mining | Machine Learning | Problem Solving | Data-Driven Decision Making

Languages

C

Building a strong foundation in programming, algorithms, and problem-solving.

● ● ● ○ ○ ○

C++

Developing efficient applications using object-oriented programming concepts.

Java

Creating portable and scalable applications with object-oriented principles

Python

Writing clean and versatile code for automation, data processing, and AI applications.

JavaScript

Developing interactive and dynamic web applications.

PHP

Building server-side web applications and managing backend functionality.

SQL

Querying, managing, and organizing data in relational databases.
